Announcement.

I hereby announce myself a candidate for county attorney subject to the action of the republican convention.

A. H. DAVIS.

COL. BRYAN intimated recently at a political function that he would not again be a candidate for president. Probably few have expected that he would be.

WITH the price of cattle and hogs soaring around seven cents, the Nebraska farmer who has either to sell is pretty well convinced that this country is not on the road to the bow-wows.

THE Butchers' Retail Association of New York has called a meeting to consider plans to bring the beef trust to time, and will solicit subscriptions for a ten million dollar packing house which will compete with the trust.

DURING the past week three noted men of this country have died—Admiral Sampson, the distinguished naval commander, Bret Harte, the noted American author, and Archbishop Corrigan, who had he lived would have become a cardinal.

THE Council Bluffs Nonpareil tells of a Chicago man, who in his pleading in a divorce case, described his married life as "a living, blazing, festering, blistering, never-ending torment to which the horrors of hell itself would be sweet music, a blessed recreating source of joy and happiness." A man with such a gift of language ought to be able to hold his own, however, even with an irate woman.

THERE are a great many republicans," says the Kearney Hub, "who prefer that Hon. A. E. Cady should be the republican nominee for governor than a candidate for congress. The party needs one of its strongest and best known men as its candidate for governor and Mr. Cady would fill the bill completely." THE TRIBUNE is one of those who would like to help elect Mr. Cady governor.

THE physicians in numerous cities are testifying that a decreased consumption of meat will be a real blessing to the public at large. They do not insist that the common laborers have been eating too much, but the people who work in doors as a rule have been indulging more freely than is desirable in this kind of food. A judicious admixture of vegetables in the dietary of the nation may result from the present agitation. There is no doubt, however, that a good market will be found for the fat cattle raised on the plains of Nebraska. The whole world wants meat, and thanks to modern methods of slaughtering, refrigerating and shipping, this country is in a position to supply a large part of the demand.—State Journal.

UNITED STATES STILL LEADS.

The United States maintains its position at the head of the world's exporting nations, despite the temporary reduction in the value of exports due to the shortage in corn available for export. The statistics for the nine months ending with March show a drop of nearly \$35,000,000 in the value of exports, but when it is considered that the value of corn exported fell \$25,000,000 below that for the corresponding period of last year, owing to the shortage in the supply, and that cotton, owing to a decline in price, fell \$12,000,000 the exports of the same period of last year, the entire decrease is more than accounted for.

Notwithstanding this reduction in exports, the grand total from the United States, for nine months of the current fiscal year exceeds

OLD PEOPLE

Do not always receive the sympathy and attention which they deserve. Their ailments are regarded as purely imaginary, or natural and unavoidable at their time of life. Disease and infirmity should not always be associated with old age. The eye of the gray haired grandire may be as bright and the complexion as fair as any of his younger and more vigorous companions.

Good Blood is the secret of healthy old age, for it regulates and controls every part of the body, strengthens the nerves, makes the muscles elastic and supple, the bones strong and the flesh firm; but when this life fluid is polluted or poisoned and loses its nutritive, health sustaining elements, then there is a rapid decline of the vital powers, resulting in premature old age and disease. Any derangement of the blood quickly shows itself in an ulcer, sore, wart, tumor or some other troublesome growth upon the body, and rheumatic and neuralgic pains become almost constant, accompanied with poor digestion and cold extremities.

S. S. S. being purely vegetable, is the safest and best blood purifier for old people. It does not shock or hurt the system like the strong mineral remedies, but gently and thoroughly cleanses the blood and stimulates the debilitated organs, when all bodily ailments disappear. S. S. S. is just such a tonic as old people need to improve a weak digestion and tone up the stomach. If there is any hereditary taint, or the remains of some disease contracted in early life, S. S. S. will search it out and remove every vestige of it from the system.

Write us fully about your case and let our physicians advise and help you. This will cost you nothing, and we will mail free our book on blood and skin diseases.

THE SWIFT SPECIFIC COMPANY, Atlanta, Ga.

that of any other country, being about \$43,000,000 more than the total exports of the United Kingdom, which ranks second. During the same period this country imported less than the United Kingdom, Germany and France, standing fourth in that respect. It is noted that an especially marked characteristic of the commerce of the United States, in comparison with other countries, is its large excess of exports over imports. Whether or not this condition is to continue is a question, but the probability is that in the not remote future the excess in the value of our exports over imports will be reduced, though there is no present indication of any considerable change in this direction and it is perhaps safe to count upon a trade balance in favor of this country for several years to come.—Omaha Bee.
